All at a low monthly price and no long term commitment

**Here is where the rules have really changed:
Your Company can be setup and using it in one day**

With Aljex, there is no long painful switchover process. In 24 hours we can have you linked into the load-boards, have your logo on your forms, have your user's login and passwords setup, your carriers and customers imported, and have your E-commerce ready to go. We can train you enough to get started in one hour. Seriously! One-hour. The required training is minimal, but the more you do, the more the system will benefit you.
