Eagle Transportation Soars with Aljex

Eagle Transportation is a fast-growing, family-owned brokerage that has used Aljex since January, 2005.

"We do truckload, LTL, intermodal, and we have a specialty department that just does overweight and over-width loads," said Eagle's VP of Sales and Marketing, David Kraitzick.

Eagle employs 65 people at 17 locations around the country. The company, which has a carrier insurance division, also offers warehousing and operates its own trucking operation, Eagle Truck Lines which uses Aljex for Carriers.

"We also use Alex's Intermodal drayage product," said Dave. "We do about 400 to 600 containers a month."

Why Aljex?

"It's a one-stop shop. And I love its evolution, the fact that it **continues to look for new solutions, new options, new ways to do things smarter and better**," said Dave.

"Doesn't seem to be a lot of complacency at Aljex," he added.

Clearly, there's no complacency at Eagle either.

Ultimate in Productivity: Automatic Shipments

Do you handle repeat shipments? Do you make a shipment, say, every Tuesday? Here's a time-saver for you:

Now Aljex enables you to **preschedule regular moves**. One entry can include the day of the week, the time of day

the load is ready, who to contact, and more. You can preassign a carrier at a given price with pickup and delivery instructions.

With Automatic Shipments, **Aljex takes care of everything**. The load is assigned automatically, and all you have to do is watch it move across the country on your Aljex screen.

Or you could go on to other paying work. Your call.

Who has the Most Professional Web Site? With Aljex, You Do!

With Aljex, you can have a **turn-key web site** that provides your customers and carriers the accurate, updated information they expect from only the largest brokers, 3PLs, and carriers.

If you're an Aljex user, your site can offer shipment status, least-cost routing, account standing, dispatch information, driver directions, and much more.

You select the Aljex data that will be available and for whom. Web site visi-

tors will find it easy to navigate. There will be a tab or button for your customers, your carriers, your own drivers, and your vendors. It will be convenient for everyone, but most of all for you.

Every question answered on your web site is a phone call you don't have deal with. That means more time to deal with your core business.

Besides all that functionality your site will be beautifully designed with your company logo.

We're talking about a top-notch, world-class web site that can be set up, including customization and training, in a week.

And did we mention **it won't cost you a bundle?**

Call Robyn at 732-357-8700 and ask about a web site for your company.

About Aljex
