California ARB Compliance

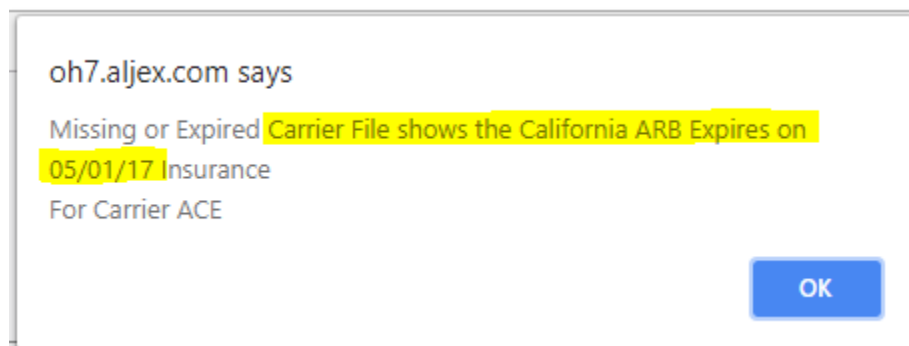

(06/11/2018)

Freight moving through California requires that a broker verify that a diesel truck is compliant with regulation requirements before they can hire or dispatch that vehicle. This additional check is an important way to help ensure that compliant trucks are operating in California.

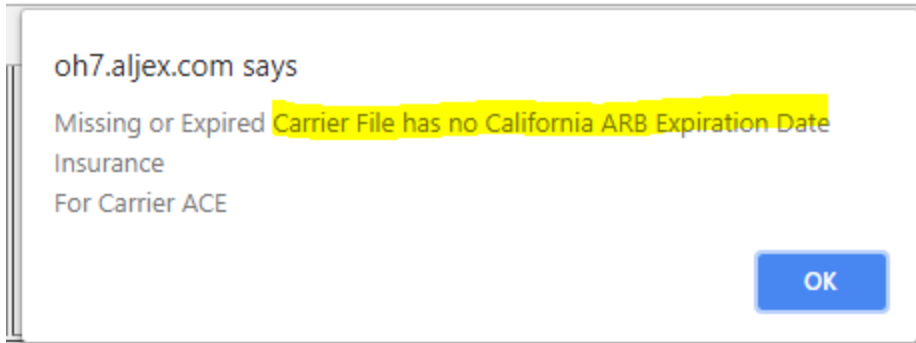

We will check the Carrier Profile for shipments that have a pick or stop in CA. ARB is the abbreviation for Air Resource Board. During the cover process for Brokerage Shipments this test will be done.

Additional Insured <input type="checkbox"/>	Certificate Holder <input type="checkbox"/>	
3rd Party Ins Monitoring <input checked="" type="checkbox"/>	WC Hold Harmless Agreement <input type="checkbox"/>	
Scheduled Autos <input type="checkbox"/>	Trailer Interchange <input type="checkbox"/>	
Check Safersys When Covering <input checked="" type="checkbox"/>	Safety Rating <input type="text"/>
