1.0 Introduction

Dispatch and Rate Confirmation have been updated to ensure FMMA compliance when assigning a carrier to a shipment.

2.0 Dispatch

When creating a shipment the user has the option to require FMMA-compliance.

Once checked the user can also designate the shipment for temperature control and add the necessary temperature values.

When a shipment has been set to require FMMA it can only have a carrier assigned with the appropriate equipment (see 4.0 Trucking below).

3.0 Rate Confirmation

If the FMMA checkbox is selected the temperature settings appear on the Rate Confirmation:

Rate Confirmation v2

If a shipment is not designated as "FSMA" but has content entered in the temperature fields the temperature values will appear on the rate confirmation as well:

Mode **BROKERAGE** Equipment **VAN** Footage
 FSMA Revenue Type **LOCAL DELIVERY** Freight Class
 Temp Control
 Min Temp °F **22** Max Temp **26** PreCool Temp **20**

Size & Type: 53' REEFER
 Pieces: 366
 TEMP RANGE(22 - 26) PRECOOL 20F

CHARGES	
LINE HAUL RATE	In

Automated Rate Confirmation

The FSMA designation and temperature values also appear on the Automated Rate Confirmation, in the Special Notes section:

Special Instructions

FSMA designated, REQUIRED TEMP: 11F - 22F, PRECOOL 23F

4.0 Carriers and Covering

Carriers must be designated as having an FSMA certificate on file in order to cover a shipment. The field to designate a carrier as having “FSMA Certificate on File” is located in the Carrier Compliance section of the carrier file:

Safety Rating
Reefer Brk Deduct
FSMA Certificate on File
Haz Registration #
Smartway

Only carriers with a Y value in this field will be available when covering a shipment that has been designated as FSMA:

Pro # **72301**

Office Mode **BROKERAGE** Equipment **FLATBED** Footage
Cust Miles **FSMA** Revenue Type **LOCAL DELIVERY** Freight Class
Truck Miles Temp Control Min Temp °F Max Temp PreCool Temp

Dispatcher Seal
Ref/Driver **JOE TRUCKING** Ce
Ref/Driver **NJ EDISON *NO HAZ MAT*** Ce
Ref/Driver **WAIT PAP-3** Ce
Email

5.0 Trucking

Aljex clients that utilize Trucking can add the FSMA certificate date to the Driver file:

Compliance

Hazmat (Y/N) Registration #
Date Issued Date Expires
Contract (Y/N) Common (Y/N)
Medical Waiver (Y/N)
FSMA Cert Date
Safeland Issued Safeland Certificate

If the shipment Dispatch has “FSMA” checked the system will check and confirm that the certificate date has been entered and that the date is before the shipment date.

When adding a driver to FSMA-designated shipment in Trucking mode, only drivers that have a valid FSMA certificate date will appear in the search results:

Customer Forms: [Bill of Lading](#) Carrier Forms: [Carrier Package](#) Miscellaneous: [View Invoice](#)

The FSMA checkbox *must* be checked in order for the driver selection to filter only FSMA-certified drivers. To change the shipment status – to add or remove the FSMA requirement – requires a save of the shipment before adding a driver.

The FSMA filter also applies when creating multiple trip-legs for a shipment:

6.0 Homepage

The Homepage designer provides the ability to include FSMA-related fields into the settings for a Homepage view. The FSMA options are available in the “Calculated” section:

Calculated	
FS	FSMA
FA	Temp
FB	Hi Temp
FC	Cooling Temp

Once added through the Homepage Designer the FSMA settings will appear for the designated homepage:
